

Distressed Property Update for Portland & Clark County

21.9% of listings distressed in PDX, 31.7% in Clark County

The latest report from the Mortgage Bankers Association indicated that the rate of foreclosure for people with fixed rate loans and good credit is on the rise.

The AP reports that homeowners' inability to keep up with payments is now more due to unemployment, rather than the subprime loans that contributed to the initial increase in foreclosures.

A quick search on RMLSweb reveals that in the Portland Metro area, distressed properties currently make up 21.9% of active residential listings (this number takes into account listings that require third-party approval, as this typically indicates a short sale and those that are marked as bank-owned).

In Clark County, 31.7% of residential listings are distressed.
