Old CMA Report Feature to be Discontinued December 31, 2010

Learn and experience our new, improved CMA

Since the release of the new CMA, the number of old CMA users has been steadily declining. Because of this, we will be discontinuing the old CMA report feature so that we can now focus on pursuing future projects and improvements. You may have noticed that we have recently extended the deadline for the discontinuation of the old CMA from October 4th to December 31st. As of December 31st, you will no longer have access to the old CMA.

We have also heard concerns from users regarding font size being too small on the new CMA. We appreciate your feedback and are currently working to improve this aspect of the new CMA.

In case you didn't know that we recently released a new CMA, here is some information about our new, transformed CMA report feature. View our tutorials below:
