

Supra Lockbox Activity: Updated Through the Week of May 21 – May 27

This Week's Lockbox Activity Decreases for Washington and Oregon

For the week ending on 5/27/12, these charts show the number of times RMLS™ subscribers opened Supra lockboxes in Washington and Oregon. Compared to the previous week, activity decreased in both Oregon and Washington. This is due in part to the decreased traffic on the weekend leading up to Memorial Day.
