

August Market Action Highlights

August was a very good month for the real estate market in many of the areas served by RMLS™. In fact, several areas recorded more closed sales than in any single month since 2007. These Oregon regions include the Portland Metro area, Lane County, Douglas County, Coos County and Curry County. Coos and Curry also had more pending sales than in any single month since 2007. The Mid-Columbia area east of Portland Metro, which includes counties on both sides of the Columbia, joined them in the pending category.
