

Password Changes Coming March 27th

RMLS™ is changing password requirements on RMLSweb!

Starting March 27th, all subscribers who log in will need to change their Private ID (password). Moving forward, the system will continue to require a password change every three months (or if you've received notice about unauthorized access of your RMLSweb account).

Currently, Private IDs must be between 7 and 8 characters, include both letters and numbers, and are not case sensitive.

As of March 27th, new Private IDs will require the following:

- Private ID length **must** be between 8 and 12 characters.
- Private IDs **must** contain both letters and numbers.
- Private IDs can (but are not required to) contain the following special characters: ! @ # \$ % ^ & *
- Private IDs are now case sensitive, but just changing case ("RMLS1234" to "rmls1234" for example) is not acceptable for a new Private ID.

Need to think of a great password? Check out "The Usability of Passwords," "Why Multi-Word Phrases Make for More Secure Passwords Than Incomprehensible Gibberish," or this great infographic about password security. Alternately, don't use one of the 25 Worst Passwords of 2012.

Questions about the new requirements? Contact the RMLS™ Help Desk at (503) 872-8002, or (877) 256-2169 toll free.
