

SentriLock Lockbox Activity February 3-9, 2014

This Week's Lockbox Activity

For the week of February 3-9, 2014, these charts show the number of times RMLS™ subscribers opened SentriLock lockboxes in Oregon and Washington. Activity fell sharply in both Oregon and Washington this week, likely due to the winter storm that descended upon the region over the weekend.

For a larger version of each chart, visit the RMLS™ photostream on Flickr.

Please note: due to the RMLS™ transition to SentriLock, historical data is only currently available through the RMLS™ Flickr page, under the tag "Supra lockbox activity." SentriLock data will continue accumulating until each chart represents a year of data.
