

Northwest Radon Forum (Camas)

The forum is free and open to the public. It will be held on January 24th, 2018 at the Camas Public Library.

Oregon Real Estate Professionals: 2 CE credit hours will be provided by Environmental Works, under the topic of Environmental Protection Issues in Real Estate. Simply sign in at the registration table when you arrive, no pre-registration required.

Co-sponsored by the American Lung Association, Washington State Department of Health, and the Northwest Radon Coalition, the 6th annual Radon Forum Northwest will be held in Camas, Washington, featuring experts from Portland State University, the Washington State Department of Health, Clark County, and others.

Topics include: where radon comes from, where it is found in southwest Washington, how it enters a home, the health implications, how to test for radon, and how to reduce radon levels in a home. Radon test kits for home use will be available for purchase for just \$7 (cash, check, or credit card, while supplies last).
