

# Open Enrollment Begins for PSU Real Estate Classes (Portland)

Portland State University is offering two courses in January for industry professionals interested in advancing their education:

Green Buildings (USP 529): Mondays, 4:00 PM-6:30 PM

Retrofitting Suburbia (USP 510): Fridays, 4:00 PM-6:30 PM

Both courses meet weekly from January 7th through March 18th. Students who have not attended PSU in the past will need to establish an account with Portland State University prior to registering for classes.

Credits earned from either of these courses can be used for continuing education purposes. The Green Buildings course can be used as a training for a LEED accreditation exam. Credits may also be transferred to into the PSU Master of Real Estate Development (MRED) program.

Contact Dr. Gerard Mildner at (503) 725-5175 with questions about courses or the MRED program.
