

# All About ADUs (Portland)

Join Earth Advantage and local ADU expert Kol Peterson for a half-day course intended to increase brokers' knowledge about accessory dwelling unit (ADU) development in order to respond to increasing client demand for properties with ADU potential. Many prospective home buyers are interested in building an ADU on their property. This course is intended to help brokers understand the basic planning and building regulations for ADU development in the City of Portland to better assist their clients.

Attendees who are interested in using this course to work toward an ADU specialist accreditation should visit the Earth Advantage® Broker website to learn more.

# Oregon Home Energy Score: A New Statewide Opportunity (Webinar)

Join Earth Advantage® and the Oregon Association of REALTORS® for a webinar designed to help real estate professionals understand how the new statewide Oregon Home Energy Score program works and how to leverage it with clients to help them clearly identify energy costs and upgrade opportunities.

The Oregon Department of Energy's new Home Energy Score initiative was launched in early 2019 to offer a statewide, standardized approach to home energy scoring. A Home Energy

Score helps homeowners and homebuyers identify improvements that can make a big difference in energy savings, comfort, health, and durability. Providing a Home Energy Score at the time of listing can also give sellers a boost in the current housing market where energy efficiency and renewable energy are highly valued. A score can also help homebuyers—especially first-time buyers—understand how energy bills could impact their budget in a new home.

Register for Oregon Home Energy Score: A New Statewide Opportunity.
