

Understanding Solar Energy Solutions (Webinar)

Energy Trust of Oregon and Earth Advantage® invite interested real estate professionals to gain an understanding of available options and tools in a webinar, in order to help clients take advantage of incentive programs and navigate clean renewable energy systems.

Webinar attendees will get an introduction to solar photovoltaic and solar-ready; hear about solar trends and demand in Oregon; learn how solar technologies can help clients lower their cost of ownership; review resources for clients to calculate their solar potential and receive bids; and more.
