

Webinar: Zero Energy Home Site Tour from Earth Advantage

Join Earth Advantage on December 9, 2020 for a guided, behind-the-walls live webinar tour of Noyes Development homes that earn Energy Trust of Oregon EPS® and Earth Advantage Zero Energy Ready certification.

Hear directly from Mike Frey of Noyes Development Co. and Stephen Aiguier of Green Hammer as they explore the under-construction details and features that go into these homes and learn how Noyes Development communicates the benefits to homebuyers.

- **9 – 10AM** | Pre-recorded video of a behind-the-walls tour with instructor, Stephen Aiguier of Green Hammer, and builder, Mike Frey of Noyes Development.
- **10 – 10:30AM** | Live Q&A with the builder, Mike Frey.

The home on the tour will feature several highly efficient and healthy home characteristics, some of which include:

- **Advanced building envelope and air tightness** (*1.3 ACH, super insulation, raised heel truss, advanced framing*)
- **High efficiency mechanical systems** (*11 HSPF ducted heat pump, heat recovery ventilation, .96 tankless water heater*)
- **Horizontally ducted heat pump system** within conditioned space
- **Super windows** (*.24 u-value, fourth surface low-e coating*)
- **Healthy home features** (*balanced ventilation, MERV 13 filters, garage exhaust fan, low VOC, green label carpets*)
- **Durability aspects** (*rain-screen wall system, enhanced*

flashing details, cement siding, insulated doors)

- **Water conservation measures** (*efficient toilets/faucets, ENERGY STAR appliances, smart irrigation*)
- **Solar ready infrastructure installed**
