

SentriLock Conversion and Fourth Quarter Invoice Information

It's September and that means RMLS™ fourth quarter  subscription dues and key fees will soon be invoiced.

But wait! Won't there be a conversion this fall to SentriLock, you might ask? Why, yes there will.

What does that mean for your bill? Let me give you a little bit of information.

Since we are converting mid-quarter, fourth quarter invoices will look a bit different. Subscribers will still have two invoices on their statement—but **if you pay for a key your key invoice will have two lines for key service instead of one:**

1. Supra Key Lease charge for October (the rate will vary based on your key type)
2. \$22.00 SentriLock service charge for November and December 2013.

Beginning in the first quarter of 2014 (which will be invoiced December 1, 2013) the new quarterly cost for SentriLock service will be \$33.00.
