

# Search for Data to Shout About with ShackShout!

Need to know what information is available on the internet regarding a particular property? A traditional web search can return irrelevant or outdated information. Finding, sorting, and understanding data that's *relevant* can be difficult for a REALTOR® to do. (Doing so faster than a client is even more difficult!)

Enter ShackShout, now available on RMLSweb.

A ShackShout button is now available at the bottom of each Agent Full listing on RMLSweb. Clicking the link will take you to an aggregated list of information pertaining to the listing.

ShackShout provides instant links to property, neighborhood, and geographic data, including:

- Walk Score
- Great Schools
- Cell Signal Maps
- and more!

Providing this information in one quickly accessible place gives RMLS™ members the tools to stay a step ahead of clients.
